ACCREDITED WORKSHOP

RAC Auto Services has achieved Level Three Accreditation in the Green Stamp Environmentally Friendly Business Rating.

The Green Stamp is an innovative program developed by the Motor Trade Association of WA in conjunction with the Western Australian Department of Environment.

The program assists small to medium automotive businesses to incorporate processes that avoid, reduce, reuse, recycle or dispose of their wastes in an environmentally sensitive and sustainable manner.

The program's overall aim is to provide responsible businesses with the Green Stamp accreditation and encourage vehicle owners to utilise the services of those businesses. RAC Auto Services has achieved Level 3 Green Stamp Accreditation, which is the highest possible.

RAC Auto Services are also a member of the Motor Trade Association of WA.

**A great service  
for you  
and your car.**

## **We have over 100 years of experience with motor vehicles.**

In 1905, the Royal Automobile Club was founded. 21 years later, in 1926, we began to provide an emergency breakdown service with two men on motorcycles who were employed as Road Scouts. Over the years we've not only built these two motorcycles into hundreds of patrol vans throughout Western Australia, we've also built up a growing network of RAC Auto Services' workshops with the experience, knowledge and expertise to meet your motoring needs.

## **It's important to get your vehicle serviced regularly.**

On average, your vehicle should be serviced twice a year to maintain its optimal performance and ensure the safety of you and your family. Before carrying out any additional work on your vehicle, our service advisors will take the time to explain to you any repairs that may be necessary. And when you pick up your vehicle, you'll also be advised if anything is due for replacement at your next service.

## **We can meet all your vehicle servicing needs.**

Our experienced technicians can perform all types of vehicle servicing:

### **Log-book servicing**

We can perform scheduled servicing in line with manufacturer's recommendations, including vehicles that are still under new car warranty. This will enhance the resale value of your vehicle and ensure that you don't void your warranty. We can also identify any manufacturing faults that require a warranty claim.

## **Blue & Gold servicing**

We have two levels of service, Blue Service and Gold Service. The Blue Service is a minor service which includes an oil change, safety check and basic inspection. A Gold Service is a major service which also includes a spark plug change, thorough mechanical inspection, tyre rotation, front wheel balancing and tune up.

NOTE: When using genuine filters, platinum spark plugs or synthetic oil a surcharge will apply. A surcharge will apply for 4WDs, V8s, selected diesels, light trucks and selected imported vehicles.

A complimentary wash and vacuum are included with all of these services.

*RAC members receive a discount on the labour cost of any servicing.*

Please talk to our friendly advisers to find out which level of service is most suited to your needs.

## **We can also perform a range of mechanical repairs.**

Our workshops are also equipped to perform a range of mechanical repairs including:

- Brake repairs and adjustments
- Suspension and steering repairs
- Coolant system pressure checks and flushes
- General maintenance and repairs

## **You can wait for your vehicle in our customer lounge.**

If you'd like to wait for your vehicle to be serviced, we have a comfortable, modern lounge where you can relax with a fresh cup of coffee and view our highly-trained technicians as they attend to your vehicle.

## **Call us today to book in your vehicle.**

For more information or to get your vehicle serviced by the experts at RAC Auto Services, call us today on 1300 797 078.
